## **DETERMINE YOUR FIRE ESCAPE ROUTE PUB-LAB**

Outdoor Safety

---

**Complete the following:**

1. Detail one most important thing to do about preparing for a fire.
2. What should a fire plan map show.
3. Who should know about your fire escape plan?
4. What should you know about every room in your house?
5. What should you make sure about doors and windows in the house?
6. How can you assure that everyone is safe outside during a fire event?
7. How can you be sure everyone understands the fire escape plan?
8. What should you practice?
9. Teach your children how to escape on their own in case you can't help them.
10. What should be done with doors in the house as you leave?
11. What should be done if the smoke alarm sounds?
12. When should you go back into a burning house?

13. What should you do if there is smoke in the house?

14. When should you call the fire department?
